

The network

The main goal of the Energy NCP network is to strengthen the participation of industries, research centers, universities and SMEs in energy oriented Research Development and Innovation through the EU Framework Programme and enhance collaborations between the different stakeholders.

What can Energy NCPs do for you?

- Improve your knowledge on funding opportunities for research, development and innovation and helping you to develop your idea to reach the market.
- Inform you on Energy calls for proposals and topics as well as bottom-up activities for Energy research and innovation.
- Support you during proposal preparation.
- Connect you to potential partners.
- Advise you on how to promote your research/technological profile.
- Assist you throughout project implementation.
- Inform you on Intellectual Property Rights.

C-Energy2020 is the pro-active network of Energy NCPs, funded under the energy theme of the European commission's H2020 Research & Innovation Program for research development

What is Horizon 2020?

Horizon 2020 is the financial instrument implementing the Innovation Union, a Europe 2020 flagship initiative aimed at securing Europe's global competitiveness.

Running from 2014 to 2020 with a budget of around €70.2 billion (at current prices), this new programme for research and innovation is part of the drive to create new growth and jobs in Europe.

Horizon 2020 will tackle societal challenges by helping to bridge the gap between research and the market.

“ENERGY NCPs can help you to find the more appropriate funding to bring your research idea to the market !!!”

Horizon 2020 (2014-2020) offers you many possibilities
