

MARCH 9, 2023

THE THEATER OF ACS ATHENS

DOORS OPEN 5:00 PM

EVENT 5:30-8:30 PM

The rapid growth of AI is leading to the rise of large language models like ChatGPT and Bard AI, which are disrupting and posing a challenge to conventional human learning.

The discussions during the panels will delve into the existing and future skill gaps in the job market and explore ways in which the education system can respond.

The panelists will bring a variety of perspectives, including those from the fields of technology, business, public policy, and education.

Organized by:

ACS Athens
American Community Schools

AMERICAN-HELLENIC
CHAMBER OF COMMERCE
