EU Missions

- Deliver solutions to address global social challenges
- Ambitious but achievable goals
- Bring together public and private bodies, research/academic institutions, businesses and investors
- Connect R&D with the needs of society and citizens

make 150 regions
and communities
climate resilient

**cancer: improve
the lives of
more than 3
million people**

restore our
ocean and
waters

achieve 100
climate-neutral
and smart cities

create 100 living
labs to lead the
transition towards
healthy soils

Cancer Mission

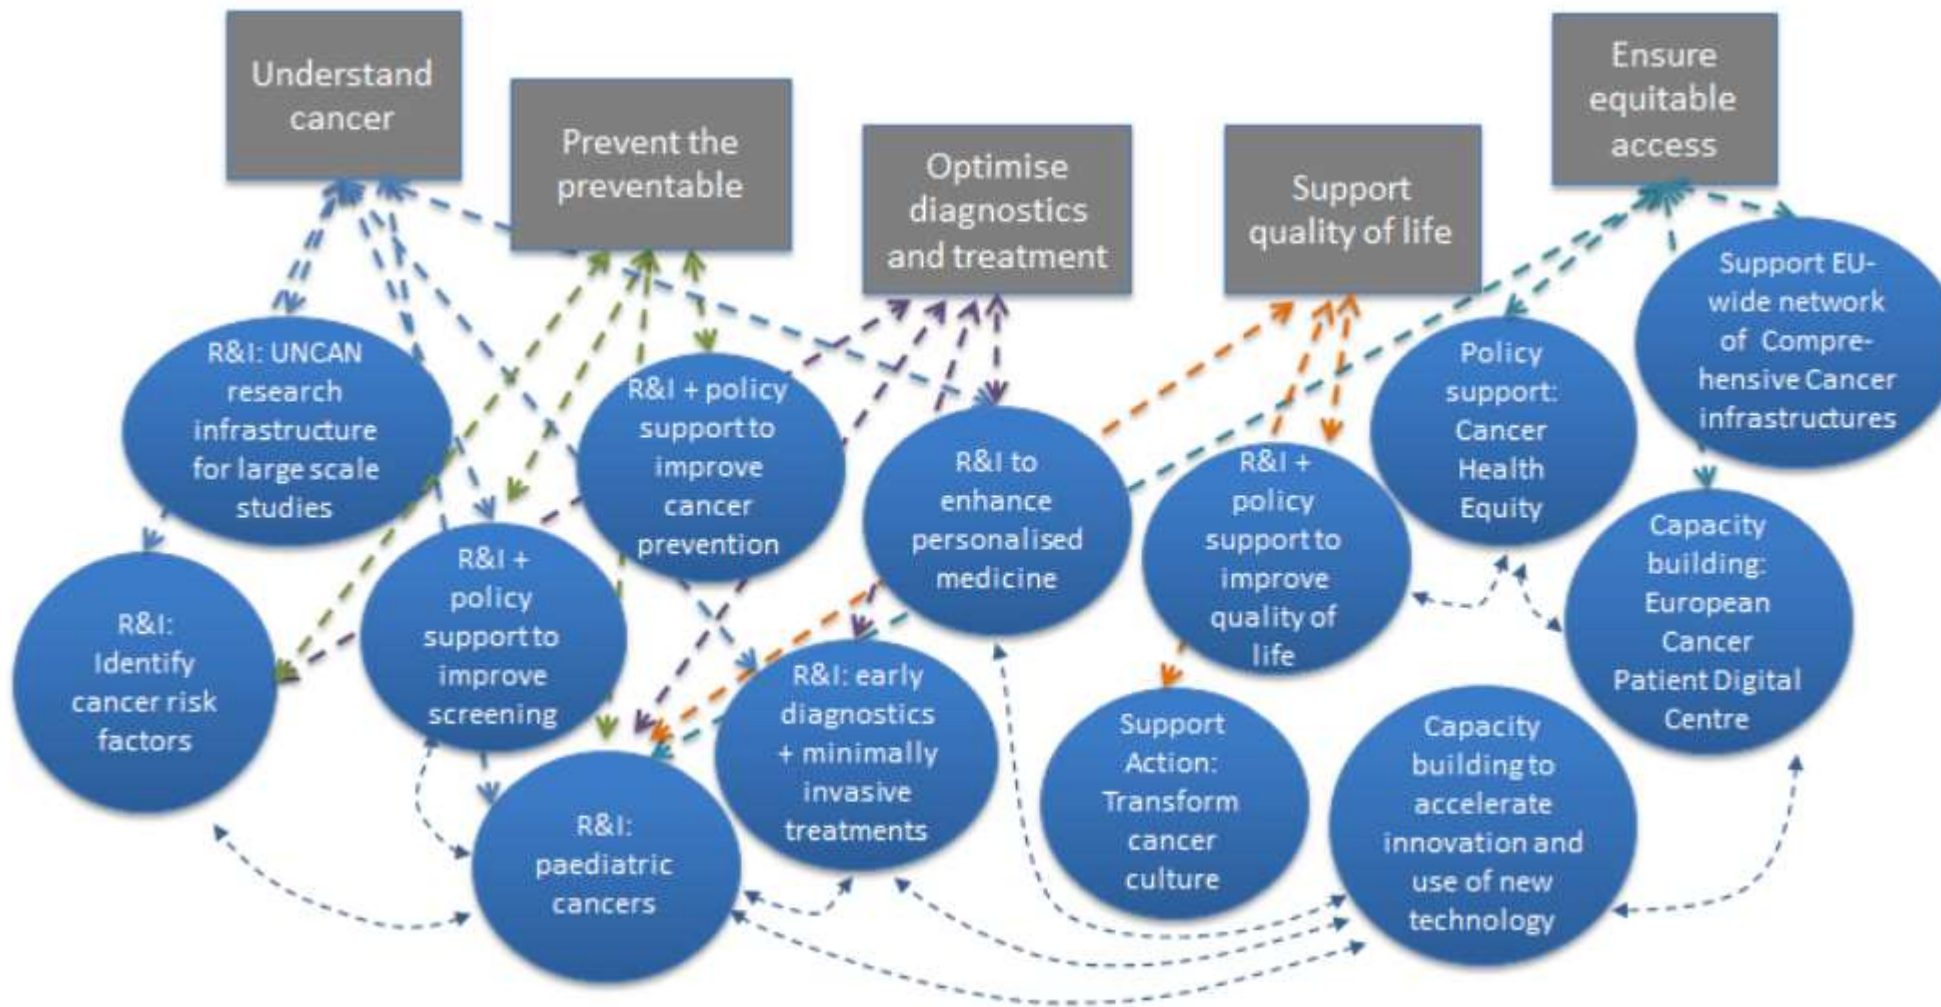

The **Cancer Mission** was launched on 29 September 2021, along with Europe's Beating Cancer Plan (adopted on 3 February 2021)

AIM

Improving the lives of more than 3 million people by 2030 through prevention, treatment and improved quality of life

Conquering cancer, mission possible

Understanding
Prevent
Diagnostics
Treats
Support
Access

Synergies
