Bridgehead Organisation in Cyprus
Research and Innovation Foundation (RIF)

RIF is the national authority in charge of supporting and promoting research, technological development and innovation in Cyprus. It was established in 1996 and its wide range of activities covers:

- National Funding Programmes
- European Funding Programmes
- Innovation Services

RIF also coordinates as **Bridgehead Organization** the EURAXESS activities in Cyprus, while also hosting one of the national **EURAXESS Service Centers**, offering information and advice to **mobile researchers**, *both foreign researchers who wish to work in Cyprus, as well as Cypriot researchers wishing to work abroad*.

RESEARCH & INNOVATION FOUNDATION

11 Service Centres in Cyprus

6 Universities

Cyprus University of Technology
Open University of Cyprus
Frederick University
UCLan Cyprus
University of Cyprus
European University Cyprus

3 Centres of Excellence

CYENS Centre of Excellence
Cyprus Maritime and Marine Institute (CMMI)
ERATOSTHENES Centre of Excellence Cyprus

2 Research Institutes and Research Performing Organisations

The Cyprus Institute of Neurology & Genetics
The Cyprus Institute

Cypri ot Portal

EURAXESS - Researchers in Motion is a pan-European Initiative launched by the European Commission to **promote research careers and facilitate the mobility of researchers** across Europe.

EURAXESS is a platform for **researchers, entrepreneurs, universities**, and **businesses** to interact with each other. It covers mobility issues, allows institutions to find the right talent, and connects people, projects and funding.

Assistance is also available to reserchers through the Cypriot network of EURAXESS Service Centres. The Service Centres help researchers and their families to plan and organise their move to a foreign country, providing assistance in all matters related to mobility.

All services of the EURAXESS network are free of charge.

State Pension in Cyprus

STATUTORY PENSION	CONDITIONS	PENSION RATE	APPLICATION

The pensionable age is 65. It is possible to receive a pension at the age of 63 under certain conditions. Miners can receive a pension at the age of 63 provided they have worked in a mine for at least 3 years; and they are entitled to a one-month reduction in the retirement age for every 5-month period they worked in a mine on condition that they are no longer engaged in that activity. They may not, however, retire before the age of 58. Cypriot legislation does not provide for early retirement in other cases.

A special benefit for people with thalassemia is granted to insured people with thalassemia from the age of 50 provided that they satisfy the insured conditions for statutory pension at pensionable age. The special benefit is payable until the date the beneficiary is entitled to a statutory pension or until the pensionable age of 65.

Payment of a lump sum instead of a statutory pension

A lump sum is paid at the age of 68 to people who do not satisfy the insurance conditions for the statutory pension. The lump sum payment is not payable if the person concerned is entitled to social pension.
