

Innovative Health Initiative Info Session

25 January 2024

Zoe Cournia

zcournia@bioacademy.gr

Senior Researcher Biomedical Research Foundation, Academy of Athens

Founder, Ingredio

National Representative, IHI

Workshop Goals

1. Inform the Hellenic community about IHI opportunities
2. Introduce IHI Governance, National Representatives and NCP
3. From IMI to IHI
4. IHI Objectives
5. Open Calls and timelines
6. Participation rules
7. Financial aspects – budget
8. How to form a consortium/find partners
9. How to propose topics for new calls in the IHI portal
10. Actions and services of EKT as the NCP for Horizon Europe

Innovative Health Initiative

EU's new partnership in health between:

- the **European Union represented by the European Commission**
- **Private Members** representing the sectors involved in healthcare, namely:
 - **COCIR** (medical imaging, radiotherapy, health ICT and electromedical industries);
 - **EFPIA**, including **Vaccines Europe** (pharmaceutical industry and vaccine industry);
 - **EuropaBio** (biotechnology industry);
 - **MedTech Europe** (medical technology industry).
- **Contributing partners** that support the objectives of IHI.

IHI's general objectives

IHI's general objectives set out in the legislation creating IHI are to:

- turn health research and innovation into **real benefits for patients and society**;
- deliver safe, effective health innovations that **cover the entire spectrum of care** – from prevention to diagnosis and treatment – particularly in areas where there is an unmet public health need;
- make Europe's health industries globally **competitive**.

Strategic Research & Innovation Agenda

Focus

- Cross-sectoral approaches to facilitate creation of new products and services to prevent, intercept, diagnose, treat and manage diseases and foster recovery more efficiently.

Goal

- Lay foundations for development of safer and more effective health care products or solutions that respond to unmet public health needs and that can be implemented into healthcare systems.

Research supported by IHI should remain at precompetitive level

IMI Statistics
